

ODYSSEUS CORNWALL'S OUTSTANDING OILS AND WAXES

PRESENTS THE AMAZING

NON-TOXIC, FOOD SAFE,

ONE COAT.

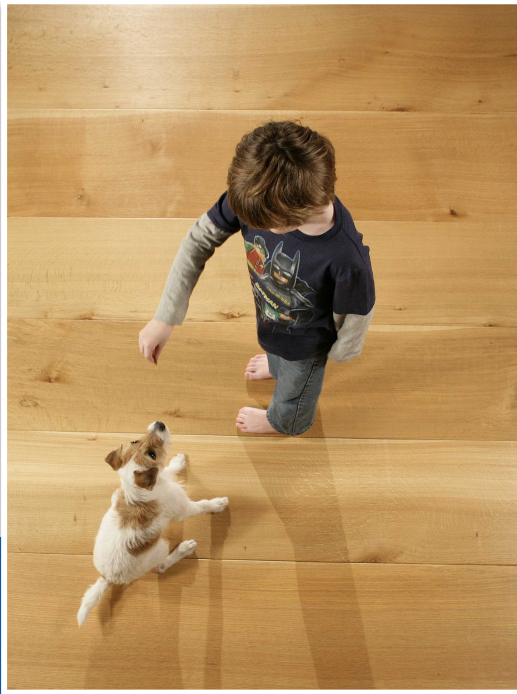

NATURALLY EFFECTIVE WOOD FINISH
AND STABILIZER!

*Odie's Oil Covers Up
To 20 times The
Coverage of
Conventional
Finishes!*

ODIE'S OIL has proven effective enough to compete and outperform directly against solvent based wood finishes on all wood surfaces, without the negative side effects associated with the chemicals involved with solvent based finishes. *Odie's Oil covers up to 20 times the coverage* of these finishes. But that's not all! It outperforms even other "solvent free, non-toxic" wood finishes because it not only goes further, but it is also more durable, looks better, and it is easier to work with and maintain.

When cost compared head to head with other finishes, Odie's Oil comes out the winner! Let's do the math:

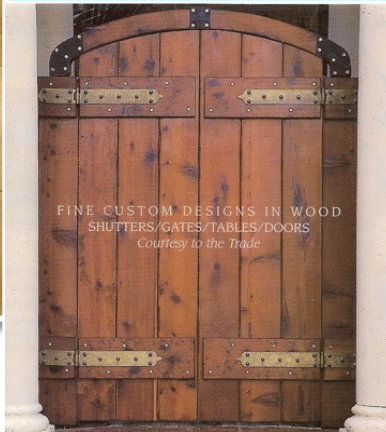

Wood Finish	Gallons To Cover a 2400 sq. ft. Hardwood Floor (coverage will vary with wood species.)	Final Cost
ODIE'S OIL	1 Gallon (One Coat Coverage = 2400 sq. ft. per gallon)	(1 gallon @ \$275)  = \$275
Tung Oil Finish	14 Gallons (coverage = 500 sq. ft. per gallon divided by the recommended 3 coat application = 166 sq. ft. actual coverage per gallon. 14 gallons x 166 sq. ft. = 2324 sq. ft.)	(14 gallons @ \$63.74 each)  = \$892.36
Solvent Free Danish Oil Finish	12 Gallons (coverage = 600 sq. ft. per gallon divided by the recommended 3 coat application = 200 sq. ft. actual coverage per gallon. 12 gallons x 200 sq. ft. = 2400 sq. ft.)	(12 gallons @ \$39.80 each)  = \$477.60
Waterborne Polyurethane Finish	21 Gallons (coverage = 350 sq. ft. per gallon divided by the recommended 3 coat application = 117 sq. ft. per gallon. 21 gallons x 117 sq. ft. = 2457 sq. ft.)	(21 gallons @ \$104.00 each)  = \$2184.00

Outstanding Reputation:

The finish has a solid reputation and enjoys an incredibly high rate of customer satisfaction.

Proprietary Expertise

ODIE'S OIL MARINER'S EDITION

In 1 Liter and
1 Gallon cans

Professional Size for
Large Applications

The scientific formula for Odie's Oil is unique in the industry and effective in both interior and exterior applications. It does not contain driers or any toxic chemicals. And Odie's Oil increases stability while enhancing the inherent beauty in the wood surface. *All of these attributes with the ability to easily maintain the surface and finish!*

The concept behind Odie's Oil is "what is applied to the wood is what stays in the wood". The wood surface and pores are completely saturated with the oils and waxes in the Odie's Oil that is applied, so there is no room for unwanted water, moisture or stains from wine, oil, grease, juice, etc! Odie's Oil contains no solvents, so almost nothing evaporates from the application during the drying process. The wood pores remain saturated with oils and waxes. This is why Odie's Oil is effective in one coat!

Odie's Oil Resists Stains, Moisture and Water!

**Food Safe, Non-toxic Ingredients
make ODIE'S OIL the Most
Family Friendly Choice,
offering Protection and
Easy Maintenance, a
Natural Finish for
Healthy Living!**

With nearly 30 years of research and development and field testing in the most extreme environments, Odie's Oil has gained market entry into the wood finish industry with a proven track record in interior and exterior wood flooring, decking, and furniture applications.

But Odie's Oil doesn't stop there.

There are many applications for Odie's Oil:

Cabinets and Kitchen Counters

Cutting Boards and Bowls

Interior and Exterior Doors and Gates

Floors and Decks

Friction Polish for Wood Turners

Boats and Brightwork

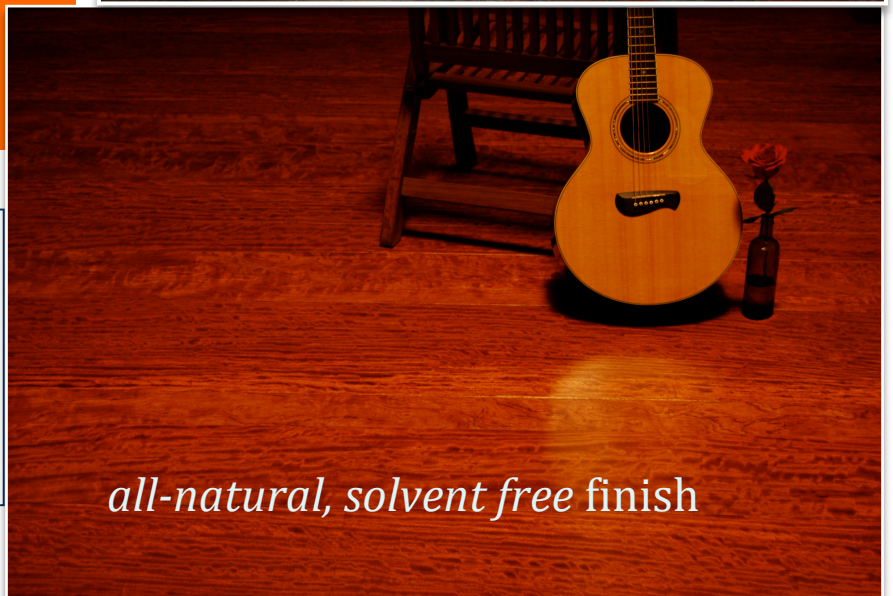

Millwork

Fine Art Pieces and Antiques

Indoor and Outdoor Furniture

Toys

Etc., Etc., The List Goes On!

all-natural, solvent free finish
